St. Albert Man Faces Sentence On Theft Charges

Leo Belhumeur, former secretary-treasurer of the St. Albert Savings and Credit Union, will be sentenced Dec. 11 on a charge of stealing \$12,656 in union funds between May, 1947 and Dec. 7, 1949.

When the accused appeared before Mr. Justice Parlee in supreme court Thursday, he changed his original not guilty plea to one of guilty. The adjournment was granted at the request of Defence Counsel Guy Patterson to arrange restitution.

Mr. Patterson told the court that Mr. Belhumeur had taken the money to assist in building up a wood-working shop in St. Albert. He did exceed his authority in doing this but there was no criminal intent.

Later the accused deposited a cheque, in his own name, to the account of the credit union to partially cover the amount, but the cheque was worthless, Mr. Patterson said.

Police were not called in to investigate until June of 1950, some seven months after directors of the union learned of the situation, Mr. Patterson said.

The restitution planned, Mr. Patterson explained, would cover

Honor Veterans of Two Wars

Veterans of two World Wars will be honored November 11 when Canada bows its head in remembrance of those who fought for their native land, and of those who gave their lives. The poppy

is the symbol of that day. In conjunction with Remembrance Day, the Canadian Legion is selling poppy tags to raise funds for disabled veterans.

OVERWHELMING SUPPORT GIVEN IN ST. ALBERT NATURAL GAS VOTE

ST. ALBERT.—Overwhelming support was given to the natural gas plebiscite here Monday when ratepayers voted 103 in favor, with only four against.

The By-law, No. 450, will enable the village council to make an agreement with Northwestern Utilities to supply natural gas to the town of St. Albert.

Mr. G. Raboud and his Grade IX entertained at a Halloween party last Tuesday evening for Grades VII to XII. Those who were present reported a very enjoyable evening.

Many little ones, some older ones, visited homes for treats at Halloween. There were, of course, a few who seemed to take pleasure upsetting huffings. The last few warm days helped

not only the \$12,656 named in the charge, but an additional \$11,000 charged against the accused by the union.

Have We Forgotten?

This Saturday, November 11, a sober day in the Canadian year. For it is Remembrance Day, when we pause to honor those who fought and those who died in defence of our land in two bloody World Wars.

On this Remembrance Day we can perhaps ask, "Have we forgotten?"

Have we forgotten the awful price that thousands of our best men paid in giving their lives in order that we may live? Have we forgotten to repay those who came through those wars alive? Have we forgotten the awful havoc of war itself?

There was a time when the answer to these questions might almost have been "yes." But not today.

A stirring awaking Canada sincerely remembers and honor those who died. And through welfare legislation, our governments are slowly doing their best to honor those dead by caring for the living who cannot care for themselves.

A brave, new Canada is standing firm against the threat of another war. It isn't looking for war outside its borders, but is strongly on guard against such a visitation within our land.

And so we say, on this Remembrance Day, "Honor the dead. They deserve it. Respect the living. They need it."

Tremendous Debt

While Canada has shown healthy surpluses in the National budget, year after year since 1945, the American republic adjoining our borders has been increasing its debt.

Public and private debt in the United States, on December 31, 1949, amounted to \$442,000,000,000. This represented an increase of about two and one-half per cent for the calendar year, 1949.

Of this indebtedness, the Federal Government owed about \$218,500,000,000 and state and local governments owed \$18,000,000,000. The rest of the sum represents indebtedness incurred by the people and corporations of the United States in their own business affairs.

This tremendous total of indebtedness would have scared financiers to death thirty years ago. Nobody would have believed that the nation and its people could carry such a financial burden except in the greatest distress. Nevertheless, something like prosperity seems to be abroad in the land and few seem to be concerned about the amount owed or how it will be paid.

Too Many Baths?

George Bernard Shaw, the world-renowned play-wright who died last week at the age of 94, spent the last few weeks of his life in a hospital with a fractured thigh.

Never one to conform to the world he lived in, in his last days Mr. Shaw complained that he was given too many baths and, on one occasion, demanded a receipt in writing from one nurse to prove that he had had his bath for that day.

In London, the medical press, discussing the Shaw complaint, says that it has come to the conclusion that hospital bathing "has been and is being over-done and that it is time the mischief was abated." The press adds that the procedure might have been necessary one hundred years ago when patients were likely to be dirty.

So, add to the Shawian legend this one about bathtubs. Hospitals. It will take years, though, before we know how it adds to the immortality of his memory in the minds of nurses and patients alike.

Note and Comment

A glut of potatoes broke the Alberta market, the price going down to \$20 a ton last week. That figures out at a cent a pound.

The federal bureau of statistics states that farm costs reached an index figure of 201.5 last August, which is double the base figure prevailing from 1935 to 1939.

During 1949 Canadians spent \$3,012,000,000 for food. This is a record figure and compares to \$2,700,000,000 spent the year before. Canadians spend more for food than any other item.

Heat, War and Beauty

By T. W. PUE

The late October heat wave which swept across the United States 10 days ago brought mid-summer temperatures to Manitoba. I know, because I was there the last Sunday in October. Everyone was seen walking with topcoats carried instead of being worn and motorists could be seen driving in their shirt sleeves.

This unseasonal heat wave, which also brought the highest November temperatures to the Maritimes, with 65 above at Charlottetown on Sunday, Nov. 5, is explained by the presence of westerly winds, well north of their normal position, which cut off cold polar air and let in the warm, tropical air from the Pacific and the Gulf of Mexico.

T. W. Pue

Both are of the same pattern. The emphasis is that of man's.

There are many things that we do not understand about weather and climate, but, in general, these seem to be some foundation for the belief that the nation has experienced warmer weather than usual during the past few years. This is not discovered by comparing temperatures on the same day of the year, but by average temperatures over a considerable space of time. How long the warm cycle will last is problematical and whether it is to be reversed by a cycle of cold years, remains obscure to human intelligence.

The geologists tell us that the North American continent had its Ice Age many centuries ago but nobody is able to say with definiteness exactly what the course of our climate has been. Neither is man able to accurately predict what is in store for the continent some hundreds or thousands of years from today. Speculation is interesting but the problem is not one to daunt us at the present time.

An increase of a fraction of a degree of higher temperature each year for 50 years would make desert wastes of Texas and Oklahoma and make central Alberta an orchard area. Wheat would be grown in fields north of McMurray and millions of people would be moving into the North West Territories.

Ho hum—it's 15 above this morning, Nov. 6. And I've known it to be colder than that in Alberta in November.

War in Korea

Milder climates 50 years hence won't help the Canadian special force moving over to Korea now. Latest forecasts of this war, now that the Chinese Communists are sending armies in to fight the U.N. forces are that the war could last all winter. And Korea isn't like Bermuda or Hawaii—they actually get snow and cold there.

I saw scores of the boys in uniform with their special U.N. shoulder patch on the trip to Manitoba. The Army is sending them all home for four days pre-embarkation leave. One young veteran of World War II told me that they signed up to see action, and that if it should be announced that the special force would not be sent to Korea, half the force would go A.W.O.L. in protest.

Hint To the Smart Girls

We are getting a little fed up on the pictures of beauties, half-clad, as they prance around for a chance to be called "beauty queen," posing before picture cameras of U.S. periodicals.

The contest idea has been worked overtime so far as feminine shapeliness is concerned and some of the contestants seem to be ready for anything so long as it is called a "contest" with a prize attached, to be awarded for pichititude.

The obvious explanation is that the American public is girl conscious (and judging by all the girlie books on the newsstands in Edmonton) some Canadians are, too. Just the same, it is about time for some smart Canadian girls to figure out a publicity stunt that calls for more beauty and less nudity than their American sisters display.

Scriptural Meditations

By AINSLEY BLAIR

"If Christians would associate together, speaking to each other of the love of God, and of the precious truths of redemption, their own hearts would be refreshed, and they would refresh one another. We may be daily learning more of our heavenly Father, gaining a fresh experience of His grace; then we shall desire to speak of His love; and as we do this, our own hearts will be warmed and encouraged. If we thought and talked more of Jesus, and less of self, we should have far more of His presence."

Dear Sir:—This is a warning to all husbands. Don't take a recent letter writer's advice and try spanking your wife. I tried it a couple of years ago and it turned out all wrong. She turned out to be stronger than I was and I wound up being the one paddled. Worse yet, now that she's found that out, she settles all arguments by using her hair brush on me. Men, don't ever try to spank your wife unless you're sure you can do it.

Technocracy:

Dear Sir:—Your headline of your story, "Alberta Technocrats May Disband Organization Here," is misleading and has no basis in fact. Mr. Argyle's reference to the closing of Technocracy's offices in Edmonton must be merely a surmise on his own part.

However, he did give a good outline of Technocracy as far as he went.

If the people of Edmonton and North America allow Technocracy to fold, then they will have reached a new and disastrous low, for, as Encyclopedia Americana states, "Whatever the future of Technocracy, it is the only program of social and economic re-construction which is in complete intellectual and technical accord with the age in which we live."

It is a plan of operation for the continent of North America and can be adopted overnight by the governments in power—at any time that a sufficient number of

the population demand it. The organization has no assumption of power but merely seeks to educate the intelligent minority capable of grasping a new idea. It is not a popular organization simply because it makes no emotional appeal.

With living costs soaring at the present rate, Technocracy should not have too long to wait. In the meantime Technocrats are still active in Alberta.

COMMENT FROM THE PRESS

Pity the Plight Of Gadsby

(From Toronto Globe & Mail)

The little Southern Alberta town of Gadsby is in a mighty bad way, according to Dan Wood, rancher, now en route to England. Dan says the ranch centre's plight on a statistical basis, three-fourths of the male population wants to get married but can't, owing to the shortage of women. What the numerical deficit of women in the population is he doesn't reveal. But it's clear enough that any community, big or little, which can provide only one-quarter of the required number of brides is approaching extinction.

Could it be that the name "Gadsby" is not attractive to the feminine ear and that women shun it to locate where place names are more suggestive of romance and living happily ever after? If Gadsby is doomed to disappear for lack of progeny anyway, why not try changing the name to Elysium, Dreamville—or even Pandoratown? The post office list shows even fancier names than these scattered across the western plains, and they may be magnets to the fair. Look at the names of perfumes they buy.

It's worth a try, especially as all the lonesome bachelors cannot follow the example of Dan Wood, who is crossing the Atlantic to find a woman in Cumberland who will do his cooking for him.

Effect of Frost on Germination

The following germination results are presented with the hope that they may help to answer the question so many prairie farmers are asking this fall: Will seed from frozen grain crops germinate satisfactorily?

Germination Results. Line Elevators Farm Service has completed germination tests on a large number of farmers' seed samples of wheat, oats and barley from many different districts of Manitoba, Saskatchewan and Alberta. A summary of the results is given in the following table.

Crop	No. of Samples	% of Samples Tested	% of Samples Germinated	Average Range
Wheat	600	44	78	6 to 98
Oats	218	42	72	2 to 90
Barley	254	42	67	6 to 84

Of the 600 wheat samples we have tested so far this fall 320, or 48%, were visibly affected by frost. Many of the frosted wheat samples germinated vigorously, but in 19% of them the germination was below 75%. Moreover, several samples germinated less than 25%. A high percentage of the seed samples of oats and barley tested from this year's crop, 57% and 42% respectively, were damaged by frost. Although many of the frosted samples of both oats and barley germinated strongly, as high as 95% in some cases, germination in 69% of the oat samples, and in 53% of the barley samples, was below the 75% level, with many of the frosted oat and barley samples germinating below 10%.

Conclusions. From the germination tests completed so far this fall it is clear that frost damage to seed germination cannot be determined by visible signs or effects. The obvious and clear fact is that no farmer can afford to take a chance on his frosted seed germinating satisfactorily. Every farmer can save himself considerable worry, and perhaps the necessity of buying new seed, by having his seed tested for germination.

Free Tests Available. Free germination tests are offered by Agents of the Line Elevator Companies listed above. Don't wait, get this important job done this fall. Be prepared to plant only clean, high-germinating seed in 1951.

The ministers and their wives from across the Canada West District of the Church of the Nazarene, which includes the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, gathered last week for the Mid-Century Regional Preachers' convention held at the First Church of the Nazarene, Spokane, Wash.

The Canada West group led by District Superintendent Dr. Edward Lawlor comprised one of seven other districts co-operating. Special speakers for the occasion included General Superintendent Dr. G. B. Williamson; Dr. S. S. White, editor of the official church paper the "Herald of Holiness"; Dr. Roy F. Smce, General Home Mission Secretary, and Dr. Hugh C. Benner, President of

the Nazarene Theological Seminary at Kansas City, Missouri.

The convention continued from Tuesday, Oct. 17 to Thursday, Oct. 19.

Rugged Gal

Never having worn a pair of shoes in her life, the mountaineer's feet were tough as leather. Her husband, stretched out on the cabin floor, watching her stir the fire in the fireplace, laboriously lifted a hand to remove his corns.

"Maw," he said, "best move yore foot. Thar's some live ashes under it."

She kept on stirring. "All right, Henry; which foot?"

Strome Has Youngest Alberta Hotel Manager

By FRANK KRENN

Robert "Bob" Chartier, who was recently appointed manager of the Selkirk Hotel at Strome, enjoys the distinction of being the youngest hotel manager in Alberta.

Born at Coal Lake, Alberta, in 1924, the son of Mr. and Mrs. Romulus Chartier of Edgerton, Alberta, "Bob" was educated at St. Jean's College, in South Edmonton.

During the construction of the Alaska Highway, Mr. Chartier was a 'dozer operator for Mannix Construction Co. In 1946, at the age of twenty-one, Mr. Chartier was appointed manager of the Allouette Hotel at La Pas, Manitoba. Moving to Alberta in 1948 he became a partner in the hotel at Alix, Alberta. He comes from a family of hotelmen. His father owns the Edgerton Hotel at Edgerton, and his brother, Rennie, operates the Alice Hotel at Camrose. Happily married to Gloria Roberts of Alix, Alberta, Bob can look forward to many years of successful hotel operation.

ALBERTA

A News Section About Alberta People,
Week Ending Nov. 11, 1950New Highway Will Open
Alberta's Last Frontier

Alberta's pace-setting development is on the verge of creating a new host of boom towns—this time in the Lac Ste. Anne district northwest of Edmonton—with the announcement that a new road link with the Alaska highway will be undertaken "immediately".

The new link will open up the heretofore unsettled vastness between Whitecourt and Grande Prairie, as the new road will give Edmonton a short, direct link with the Alaska highway.

At present a poor road and a one line railway runs northeast one line railway runs northwest from Edmonton through Onoway,

Cherhill, Sanguo, Mayerthorpe, and on to Whitecourt. But there it ends.

Behind it stands a vast chain of fertile valleys untouched by civilization.

But the new road will do more than open up Alberta's last frontier. It will bring a tremendous flood of business to the towns between Edmonton and Whitecourt, for this is the route over which most commerce will flow into the Peace River country, northeastern B.C., and Alaska.

Signs of an oil boom have also been seen in the Lac Ste. Anne district. Between Lisburn and Sanguo an oil company recently brought in a successful wildcat well, and it looks as if others are on the way.

The new road itself will stretch back from Whitecourt to Valleyview, where it joins the present road to Grande Prairie about 50 miles east of the center. The new road will be about 100 miles long, and will be about 100 miles shorter than the present route to Alaska.

The road will traverse the area where a crew of searchers are currently seeking five airmen whose plane may have crashed in the area three weeks ago.

LABOR RAPS
JAIL SET-UP

Organized labor has attacked the provincial government over the administration of the province's jails.

Last week the Calgary Trades and Labor Council heard a report from George Perry, chairman of the resolutions committee of the group, which charged that prisoners in the Lethbridge jail recently staged a sit-down strike over poor food.

Mr. Perry said his informant was a unionist who had served a 25-day term for a traffic violation. He did not name him.

He said he had made a personal investigation which showed that Lethbridge jail inmates were improperly fed.

"This government of ours," he said, "does not see fit to hire even one trained cook to see to it that these men are properly fed."

In the ensuing discussion, one delegate said he had spent a year in the jail in his younger days and had never seen an egg during the whole time, despite the fact the jail operates a chicken farm.

"I wouldn't even tell delegates of some of the things that go on in jail," he declared. He charged that "decent people lose character, that nobody knows and nobody apparently cares very much about it."

The council unanimously passed a resolution supporting establishment of a board of prison directors, with labor representation. This is being referred to the executive of the Alberta Federation of Labor for submission to the provincial cabinet.

Pioneer Alberta Couple Honored

Pioneer Redwater district couple, Mr. and Mrs. Paul Pysmany, were honored recently at a surprise party on the occasion of their 25th wedding anniversary. Seen here, left to right, is Mrs. Hazel Logachinsky, Mrs. Wm. Lukawsky, Mr. and Mrs. Pysmany, Andrew Holowack, and Fred Kryz.

Technocrats Deny Plans
To Disband Movement

A high officer of Technocracy Inc. has denied intentions of disbanding in Alberta "or anywhere else on this continent," following the publication of an exclusive story in this newspaper dealing with the future of the Technocrats in Alberta.

The denial was made by Wilton Ivie, assistant secretary of Technocracy Inc., from the organization's Continental Headquarters in New York.

Article reported that the movement may disband in Alberta through lack of support.

While the Technocratic officer took no objection to the article's outline of Technocracy's program and principles, Mr. Ivie said the article contained several "erroneous statements."

The story, which outlined the history of Technocracy, stated that the organization was banned between 1940 and 1943 because it objected to Canada's participation in World War II on the grounds that the war was being fought mainly to prolong the system.

Ivie declared that Technocracy was not banned on these grounds, but because the organization advocated total conscription, and was banned due to an "agreement between the Liberal party and Quebec politics that conscription would not become an issue in Canada during the war."

However, in 1944 conscription became such a controversial issue in Canada that the Liberal party

nearly lost its support in Quebec before the matter was settled.

Mr. Ivie said that "restrictions were lifted on Technocracy in Canada (because) the ban could not be sustained in the courts."

Investigations on the part of this newspaper failed to reveal any court action in Canada over the legality of Technocracy during the late war.

Mr. Ivie went on to say that the membership of Technocracy is larger now than during the depression, but that this does not matter, because "Technocracy is an idea whose time has come, and does not depend upon the mass conversion of followers."

The assistant secretary of Technocracy admitted that the organization is waiting, as the article stated.

Mr. Ivie said that "we are not attempting to force any social design upon you or anyone else. We are waiting in the full knowledge that, when you have finished around with the price system until you can't make it work any more, you will come howling to the Technocrats to save the social order."

"Technocrats can afford to wait, but can you?" Mr. Ivie added.

MORINVILLE NEWS NOTES

MORINVILLE. — The parade of ghosts, goblins and witches has passed, and the masquerades are over. Halloween was a busy night for a lot of fun-loving people but nobody is any the worse for it.

The date for the Morinville Church Bazaar has been set; the Morinville Curling Club will begin a subscription campaign very soon; Morinville has a new wheat king and last but by no means to be forgotten is the big chicken supper at Mearns on Sunday.

We are happy to welcome to Morinville a family of new residents; Mr. and Mrs. Metro Star-chuk along with a son Paul aged six years and Miss Natalie, eight years old. They have bought the acreage in the north end of Town and are now finishing their new home on the premises.

Mr. L. H. Tremblay is recovering from an operation he underwent recently. Little Jerry Huot who had the index finger on his right hand smashed in the box of a truck is doing nicely after an operation on the injured hand. Another casualty, baby Larry McDonald is back home and is reported well. Miss Mary Truscott, daughter of Mr. and Mrs. Jack Truscott, who has been a victim of polio has now been transferred to the University hospital for physio-therapy.

Congratulations are extended to Mr. and Mrs. J. Truscott on the arrival of a new baby girl born on October 21st and named Brenda Ann. Mr. and Mrs. John J. Bokenforth are the God parents of the new niece.

Mr. Fred Bokenforth was taken to hospital, but is reported resting nicely. Mr. Tony Hittenger is also recovering from an emergency operation, but the last news was

that he was able to get up so that is very good indeed.

In case any one is still wondering who the two lovely porkers, Gainers and Swifts that had every one guessing at the masquerade were, we feel that they should be labeled as Mr. and Mrs. J. Brochu. Congratulations on this original idea and too bad you made yourself so scarce during the dance. It could have paid off well when the grand march was called.

Wilfrid Labonte swears that he counted one million ducks all at one time while on a hunting trip to Lac Lebeau. Well Wilfrid, if meat is so plentiful why not take advantage of the situation and cut the price of beef at least until the close of the shooting season.

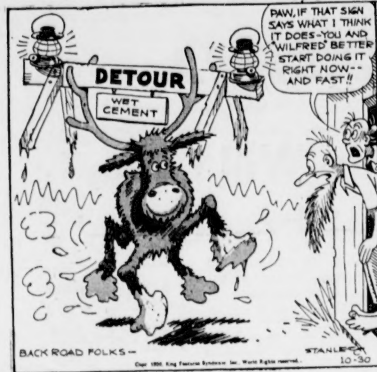

Mrs. C. Beaudry of Mearns had the pleasure of a visit by her daughter Mrs. Jean Lafette of Toronto for the past three weeks.

Last Friday, Lions Mortie, Gerry and Alfred accompanied by Mrs. Milner, St.-Germain and Marfel attended Charter night at Devon where a delightful banquet and grand soiree was held at the Club Pagoda. Lion Alfred was announced as tail twister for this special gathering with well over 100 guests present. Later Lion Alfred gave an Exhibition of Dancing that brought many encores from the cheering crowd.

Last Sunday, the infant son of Mr. and Mrs. Maurice Kremer was baptized and received the name of Joseph Emile Tommy Kremer. His paternal grand parents, Mr. and Mrs. Emile Kremer stood as God parents.

Remember folks next Saturday.

THE OLD HOME TOWN

November 11th is a public holiday and all business places in Morinville are scheduled to be closed all day. Hotel beverage rooms will remain closed until after the memorial services to take place at 10:00 a.m. So do all your shopping next Friday for the week end.

Tonight is the date for the Harvest dance in support of the Library Fund. Prizes for zest costumes and the announcement of the winning contestant as well as many novelty dances, should bring a good crowd.

One boy was heard to say last Tuesday evening "they never do any thing for us kids in this dump of a town, the C.Y.O. club had their party on Sunday night, last night the older people had another party but us kids we never have any real fun and we get hell

when we try something on our own." Truer words were never spoken folks, maybe next year some organization will sponsor a real Halloween party for youngsters, and no doubt the wee ones would enjoy an afternoon party too. It would be nice don't you agree?

CHANGE FAIR'S NAME

DETROIT. — The name of this city's first big international exhibition which will be patterned after the Canadian International Trade Fair at Toronto, is to be changed from the Detroit International Trade Fair to the Detroit International Industries Fair. Promotion of the fair, which is scheduled to open in late June, 1952, is in the hands of a Canadian organization, a development unique in American industrial

Farmers' Masquerade Huge Success

MORINVILLE. — On Friday evening the AFU and the AFUWA held a most successful masquerade dance with 200 present and a most enjoyable time was had by all who attended. The variety and numerous costumes added a very colorful atmosphere and spirits ran high for the entire evening. When judging time came around to pick the winners those who were asked to pick the winning costumes had quite a time to decide, as there were so many worthy of prizes and only three to be chosen. It was decided that some consideration should be given to those who not only dressed as Indians but who really acted the part all evening should be awarded the prize. The same for the novelty costume chosen. After the masks were removed it was revealed that Leo Tennan-court was the old squaw who was the partner of Indian brave Fernand Borle. Bert Craig turned out to be Papa Bear and each received a box of chocolates with the compliments from President Phillippe Gibeau.

Those who rated honorable mention and would surely have won prizes had there been more to hand out were: The lovely pair of Porkers, Gainers and Swifts; The Shamrock jockey, Klondyke Kate and her three prospectors; the big Indian Chief with the beautiful feather head-dress; the mummy; the two faced lady; the big fat Mammy, the Lady Gypsy as well as the big squaw and the ghost and the lady with the rich brocaded satin Indian or Turkish costume.

REMODELLING WORK UNDERWAY AT MORINVILLE HARDWARE

MORINVILLE.—One of Morinville's oldest land marks, the Morinville Hardware, has been undergoing major alterations for the past few weeks.

The Morinville Hardware is becoming one of a chain of 800 stores throughout Canada and the U.S. under the Marshall-Wells plan. Prices are competitive to any of the large hardware departments in any city on all articles as well as budget buying on major appliances.

Morinville Hardware wishes to thank their customers for their co-operation during the inconveniences of carrying on business during alterations, but soon Morinville can be proud of one of the most modern hardware stores in Canada, where it will be a pleasure to shop.

Bernard M. Baruch, retired industrialist: "Always there is the danger that the Soviets may choose to strike before Western Europe's defenses are readied."

Solution To
This Week's Puzzle

The LIGHTER SIDE

Evidence to the Contrary

The boss of the shipping department was bustling along about his duties when he sighted plump George, one of his workers, gazing blankly out the window.

Irked, the boss confronted stutuesque George and said: "Listen, fellow! Don't you know you'll never get anywhere by just standing around?" George said, "Did you ever ride an escalator?"

What's the Use

A farmer had a son at college. At the end of the first year the son came home in high feather. He stood second in his class.

"Second?" said his father, "Second! Why didn't you stand first? What do you think I'm sending you to college for?"

The young man returned for his second year determined to win first place. At the end of the year he returned home and announced his success to his father. The father looked at him for a few minutes in silence, then shrugged his shoulders, and said: "At the head of the class, you? Well it can't be much of a college after all."

New English Economy

Near a small Cape Cod village a tourist came upon a charming cottage set like a jewel in the midst of green, rolling lawn flower beds and stately shade trees. The dwelling was freshly painted white and set off by bright green blinds, while tastefully arranged upon its broad veranda were hammocks, easy chairs, and brilliant sofa pillows. All the adjuncts of summer comfort.

"Whose place is that?" the traveller inquired.

"That," his guide casually rejoined, "is the poorhouse."

"The poorhouse?" exclaimed the astonished tourist. "You must have some mighty fancy paupers."

"We ain't got but one," the guide replied, "and she's an old woman. The overseers board her out with one of the neighbors, and let the poorhouse to some Boston swells for the summer. And that, sir pays all her keep!"

LETTER TO LOUISA

Girl of 20 Writes Of 'Chaperon Trouble'

DEAR LOUISA:—I have written to your column before and as you answered my problem so well the first time, well here's my problem this time—it's chaperones.

I have been keeping company with a man 11 years older than myself. I'm 20. I find this man's company very good. He is amusing, yet sober-minded enough, and he is a gentleman.

My parents haven't a thing against him, except, perhaps that he doesn't attend the Sunday services as faithfully as we do.

Mother even says she likes him and that age doesn't matter, unless, of course, the gap is too wide.

I think I love him and I'm sure he loves me. We intend to get married in a year or so.

Even after I've mentioned possible marriage with this man, mother still insists on us having my sister or brother with us when we go out. When he takes "us" back I'm expected to get back in the house along with the others. I like to linger a few minutes alone with him but mother thinks this is unreasonable. In staying back those last few minutes so bad that I should be reproached for it!

I've never given my parents any reason to distrust us, although I understand her concern.

My boy friend knows about this and he can't help but feel

that he's not welcome. When I know that he is.

I think that chaperones are o.k. for kids of 13 or 14 and "puppy love," but for a girl of 20?

I hope you will give me your opinion.

BLUE EYES.

Answer—I must agree with you that it is not unreasonable for you to want to linger with your boy friend for a few minutes while saying goodnight.

In my opinion, though, you are putting too much emphasis on the serious aspects of your relationship—love and marriage—and perhaps that is the reason for your mother's concern.

After all, a gap of 11 years is considerable, though if time shows that you truly love each other, that doesn't matter.

Meanwhile, I would advise you to consider him just your "boy friend." Perhaps if you show your mother that you are not impetuous, but sensible and level-headed as far as this matter is concerned, she too will take a more reasonable attitude.

LOUISA.

This view of the entire brink of Niagara Falls was taken from a helicopter. Usually much of the brink and cataract is obliterated from view of tourists because of the mist generated by the falling water, but when this aerial photograph was taken the mist was negligible, allowing one of the best shots ever taken of the Canadian falls.

Two queens and two princesses make a fairly long line of British royalty. At left is Dowager Queen Mary, mother of King George VI; at right is Queen Elizabeth, wife of King George, and in centre, Princess Elizabeth, holding baby Princess Anne. This photo was made after Princess Anne had been formally christened.

for Christmas!**Morinville Clubs Propose
Community Recreation Hall**

MORINVILLE. — On Monday, Oct. 24, a meeting called by Mayor Art Soetart was held in the town office with representatives from all local clubs, and members of the council present.

The purpose of this meeting was to give an outline for the feasibility of a Community Recreative Centre.

Mr. Mayor explained and stressed the urgent need for some form of common co-operation to unite all efforts in a central location to form, develop and maintain a Community recreative project. Two locations were suggested where a large enough area and proper facilities are available for full development of such an undertaking. It was agreed by all present that block "A" located across from the school and comprising of 38 lots would be by far the best. This property is owned by the Rev. Sisters. The other comprises of Block "X", located two blocks south from the bank and comprises 37 lots of which the town owns a part and the rest is available at a reasonable price.

It was then moved by Mr. O. Patry that a delegation be sent to interview the Rev. Sisters and find out if they would consider selling this block of land for a Community project. Those chosen were: Rev. E. Briere, Mayor Soetart and Mr. F. Tailleux. This motion met with unanimous favor of all present.

Rev. E. Briere was the sponsor of a motion, that was moved by Philippe Gibeau and seconded by Wilfrid Labonte which reads as follows:

1. That this meeting of town and district representatives are in favor of a Community Recreative project to be located in either Block "A" or Block "X".
2. That all town and Community organizations be invited to centralize their work on that plot of land.

3. That before any definite move

is made, that a referendum be taken. This motion was later rescinded and withdrawn by the sponsor. After a period of general discussions on different phases of this proposed project, the chairman of the meeting, Mayor Soetart adjourned the meeting until reports from all clubs are available and a definite site is chosen.

Those present were as follows: Rev. E. Briere and Mr. F. Tailleux, Church representatives; Town Council members present: Mr. Nap Douzeich, Jerry Denoyers, Lucien Letourneau and Peter Gibeau. C.Y.O.: Mr. Phil. Gibeau and Denis Hebert who acted as secretary. School Board: Mr. Wilfrid Labonte and Paul Brochu. Canadian Legion: Mr. Mark Saffin and Art. Stapleton. Curling Club: Mr. Oscar Patry and Raymond Meunier. Lions Club: Mr. Walter Ellett and Gerard St.-Germain.

SUNDAY SCHOOL LESSON

True Christians Practice Racial, Religious Tolerance

What should the Christian's attitude be toward peoples of other nations and other races?

This is a question of importance to individuals in localities where there is a mixture of races and is just as important to the people of one nationality in determining their fellowship with other nations, often composed of people of another race.

The ancient Jew certainly had his full share of racial pride and exclusiveness. He considered himself one of the chosen children of Jehovah, occupying a position of favor and privilege in the plans of deity, therefore, not to be contaminated by contact with a foreigner which included all those not descendants of Abraham.

This traditional attitude of the Jew, however, was occasionally softened by some of the great Jewish leaders, who were broad enough and liberal enough to realize that it was mainly prejudice. One of the earlier examples was that of Solomon, praying at the dedication of the Temple, who petitioned that the prayers of the foreigner might be answered, as well as those of the faithful Jew, (1 Kings 8:41-43).

The teachings and life of Jesus show how completely he rejected the narrow viewpoint of the Jewish tradition, refusing to limit the possibility of salvation to the Jew alone even going far enough to warn that outsiders might come in and take what had been offered the children of Abraham. The great commission delivered to his followers, just before his ascension, embraced all mankind as the object to receive truth. Time and again Jesus, by example and word, sought to broaden the love and sympathy of mankind, as he went among the exclusive Jews, as is especially shown by his attitude towards the Samaritans.

Between the Jews and Samaritans there existed a cordial hostility. The Assyrians carried into

exile the leading inhabitants of the Northern Kingdom and colonized the country with members of their own race, who during the process of centuries were mingled with the Jewish remnant thus forming a cross between the two peoples. In religion they differed from the Jews, for although they accepted the Pentateuch, they had their own Temple and priesthood.

Yet, in his immortal parable, to illustrate the neighborhood of man, Jesus used the figure of a Samaritan as a benefactor, after a Jewish priest and Levite had successfully passed the stricken Jew, (Luke 10:20-37).

The early Christian followers faced the problem of deciding the extent of the new dispensation. Naturally, at first, those who followed Jesus were only Jews, but it was not long before the inevitable decision had to be made as to whether or not the new salvation was open to the Gentile as well.

During his ministry Paul waged unceasing battle with the conservative exclusive Jewish attitude, upholding the necessity of the new faith.

Standing upon the fatherhood of God, which carried with it the brotherhood of man. Paul refused to accept any limitation of the new faith, knowing neither Greek nor Barbarian, Jew nor Gentile, in the availability of the blessings offered by entrance and participation in the kingdom of God.

Power Company Launches New Alberta Project

Two coal mining companies, together with a power company, are writing a new chapter in the story of Alberta's industrial development.

Just a few months ago, two new coal mining companies, Forestburg Collieries, Limited, and the Alberta Coal Company, commenced preparation for large-scale strip-mining operations on their properties lying on either side of the Battle River, between Forestburg and Halkirk, southwest of Edmonton.

Electric energy is the ideal power source for the recovery of coal and Canadian Utilities, Limited, which has served this area for many years will spend about \$335,000 for ample power for the mines at all times.

Production at the mines is scheduled for this Fall, to be gradually increased as their installations move towards completion, which is expected to be reached early next year. This year's expenditure of \$205,000.00 to supply power by Canadian Utilities Limited, has been practically completed and early next year the job will be finished at an added cost of \$150,000.00.

This will provide a lot of power but the need for it becomes evident in view of the huge machines to be operated. As an illustration of this, there is under consideration by one of these mines the possible installation of an electrically powered, eleven yard power shovel capable of taking coal from the seam in ten ton bites, five of these being enough to load a railway car to capacity.

This is a development new to Alberta and its progress will be followed with interest.
